SINCE 1985 AUSTRALIA'S FINEST SADDLERY

LETTER FROM OUR FOUNDER

Redefining saddle making, it is difficult to discover design that is truly original. At Peter Horobin Saddlery, our ideas of saddle design stem from the inspiration of equine back health and the desire to create beautiful saddles that not only feel incredible to ride in but are beneficial for the horses' back.

With equine welfare in mind, we endeavour to create a memorable saddle buying experience; offering tailor and custom as well as a complete bespoke experience.

Along with equine welfare in mind, we endeavour to create a memorable saddle buying experience, offering tailor, custom and a complete bespoke experience.

A family business, we are located in Melbourne, Australia and make saddles for customers world wide. Located on the coast of the pristine Mornington Peninsula, we are proud to bring an Australian owned company to Europe.

Our selected saddle fitters have been trained to the highest of standards and are proud to be a part of the PHS team. We are family, from the workshop to the barn.

By choosing a Peter Horobin Saddle, you are not choosing just any saddle. You are choosing to ride in a saddle that is not only incredibly comfortable to ride in but can be adapted to the horse as many times as required. With a lifetime warranty on the saddle tree, we strive to set the highest standards of design and manufacturing.

Customer service is an important part of our core values and we like to look after customers. Not only as part of the experience of buying a saddle but after the saddle buying process has ended. For us, it is thoroughly enjoyable to follow the journey of both horse and rider with their PH saddle.

As you never really own a Peter Horobin Saddle; you are merely looking after it for the next generation.

P Horobin

Philosophy

Since our **inception in 1985**, we have become Australia's finest saddlery. We have over 40 years experience in manufacturing custom made and bespoke saddles for the equestrian and racing industry. Our saddles are flocked with **wool** from **sustainable farms** throughout Europe and Australia. We use the highest '**A**' **Grade leather** sourced from some of the **oldest tanneries** in Europe who use **eco friendly tanning** methods.

A Peter Horobin Saddle is made with the love of a **family business** who have a passion for **equine welfare**. PH saddles are easily adaptable in the gullet with a **gullet machine by your qualified saddle fitter**. Panels can be reflocked easily and most adjustments can be done on site* A PH saddle is designed to forever change to your **forever changing horse**. When you purchase a Peter Horobin saddle you will receive a **lifetime warranty** on the revolutionary **award winning StrideFree tree***

The benefit of having the StrideFree tree is that instead of having tree points which can put pressure on the horse's scapula/trapezius muscle, the StrideFree patent design tree features a curved edge complete freedom for the shoulder to rotate, allowing the horse to elevate the leg forward to bend and flex accordingly.

You never truly own a Peter Horobin.

You merely look after it for the next generation.

*contact your qualified PH representative via our website www.horobin.com.au

*see our terms and conditions via our website.

In the diagrams below, see the StrideFree Tree (white tree) in comparison to more common saddle trees used today. Keeping in mind that the shoulder rotates back towards the tree points - Therefore, the StrideFree tree distributes the pressure and the weight of the rider over a much broader surface area.

Velcro Knee Roll Options: #2, #3, #4, #10 #11

SF Endurance

StrideFree Endurance. Developed with the notion of providing the endurance rider with ultimate comfort for long rides, alongside maximum comfort for the horse. Wide load bearing panels and shoulder clearance allows full range of motion. The position of the tree allows for the scapula to elevate and retract when the shoulder moves forward, i.e. extends.

Short = -2cm
 Standard
 Long = +2cm
 X Long = +4cm

SF Melbourne

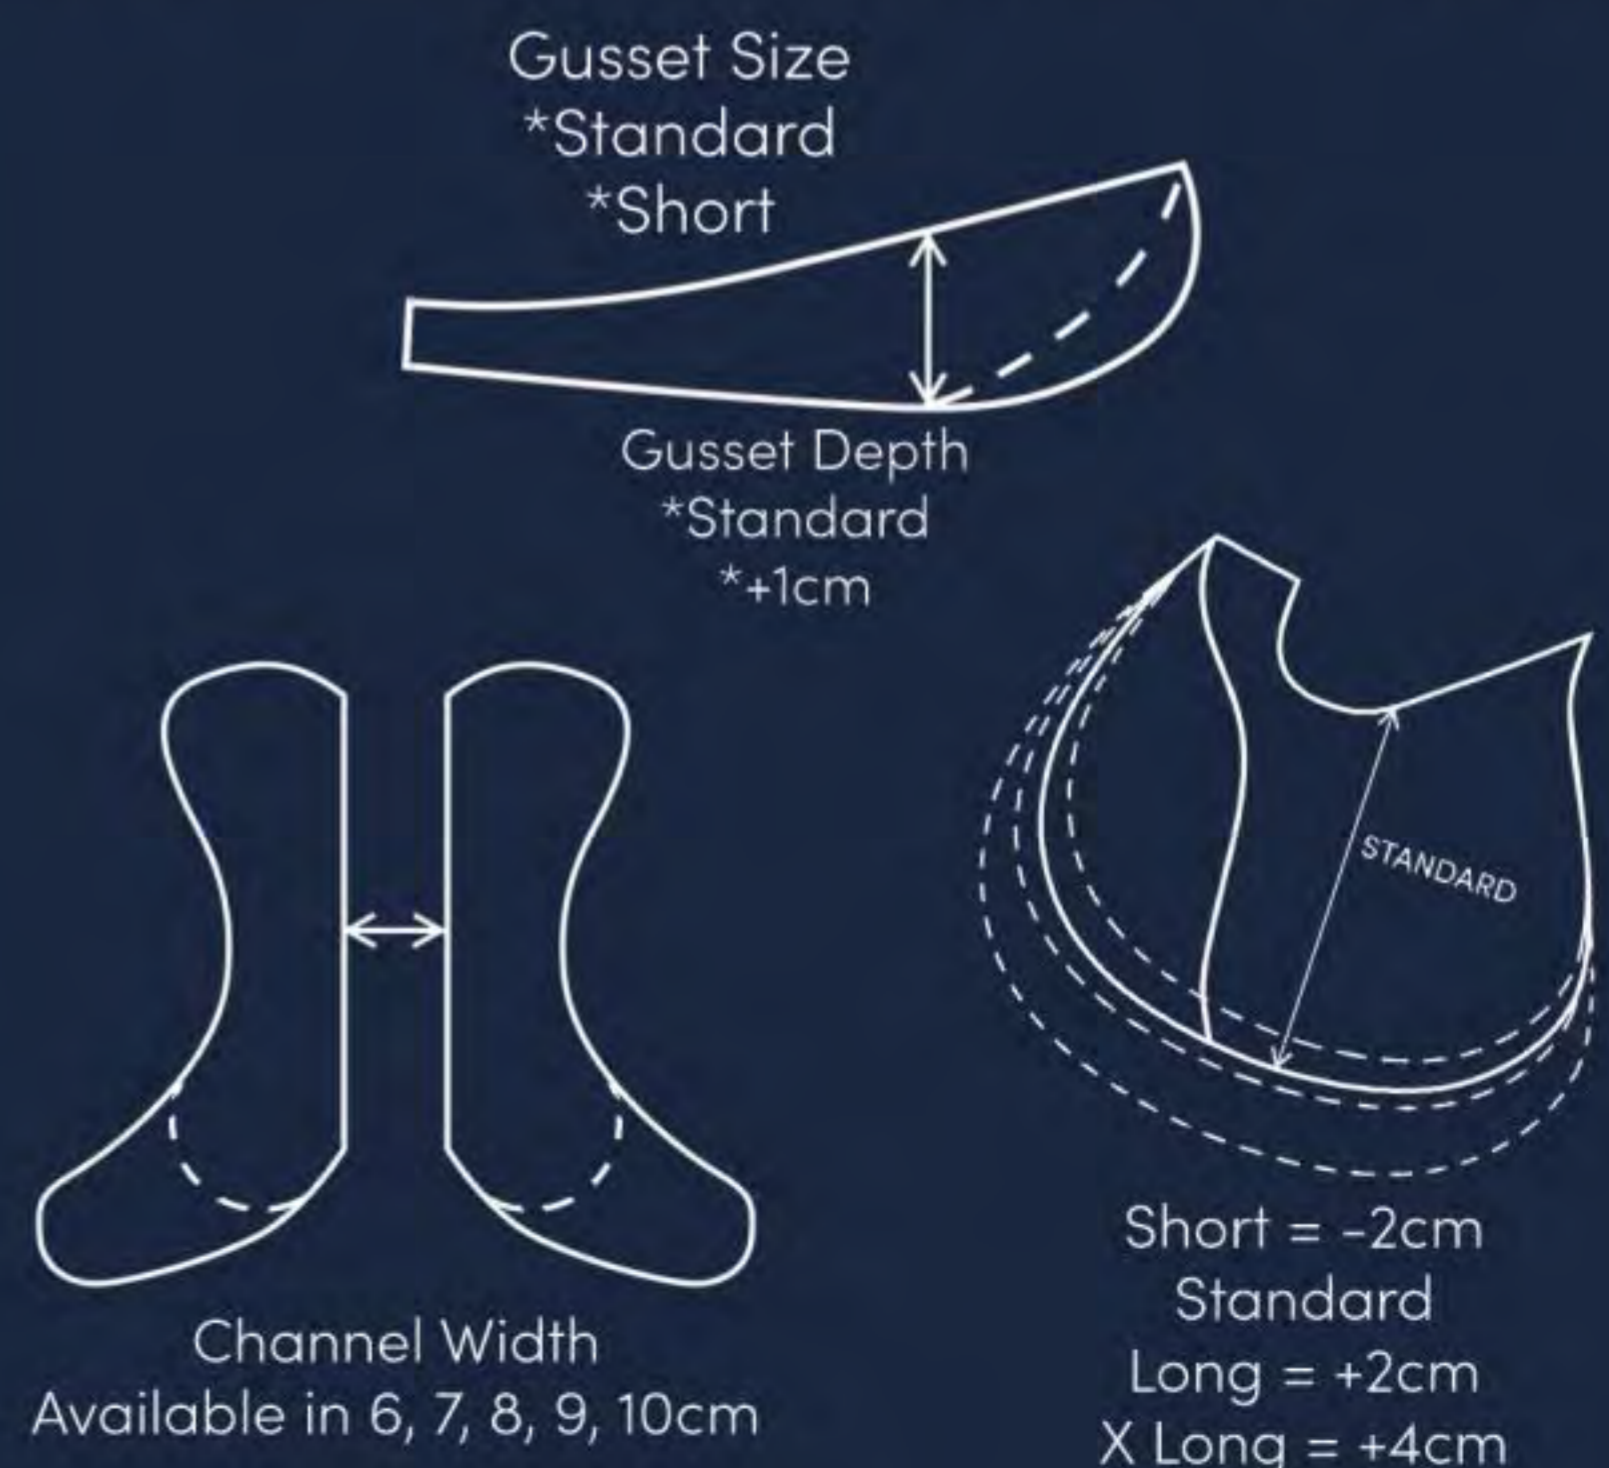

The StrideFree Melbourne has been refined for close contact, with the stirrup bar alignment supporting the mobility and forever changing gravity of the rider to suit his or her position.

- The SF saddle tree has been developed with the horse's ultimate comfort in mind.
- Working with equine professionals worldwide to understand more about the biomechanics of the horse.
- The patent design saddletree has been developed with a new concept of having longer and broad based tree points.
- Instead of having tree points which dig into the horse's scapula/trapezius muscle, the SF tree features a curved edge, allowing absolute complete freedom for the shoulder to rotate allowing the horse to tuck its legs up.
- The tree has an adjustable steel gullet which can be adjusted to the shape of the horse for as many times as needed.
- The panels are flocked with wool and can be easily repacked.
- Ideal for showjumping and Cross Country

Sizes: 16.5", 17", 17.5", 18"

Colours: Black, Chestnut, Dark Brown

Velcro Knee Roll Options: #5, #6, #7, #8, #9

SF Melbourne MonoFlap

- Made on patent design stridefree tree
- Soft, flexible forward cut flap
- Slightly deeper seat than traditional jump saddles, for a more secure position
- Wide channel provides sufficient spinal clearance
- Versatile design- Ideal for jumping, trails and all-round pleasure riding, hunting.
- NEW grippy leather
- Narrow Twist
- 100% Wool Flocked panels
- Life Time Warranty on Tree.
- The panels are flocked with wool and can be easily repacked.

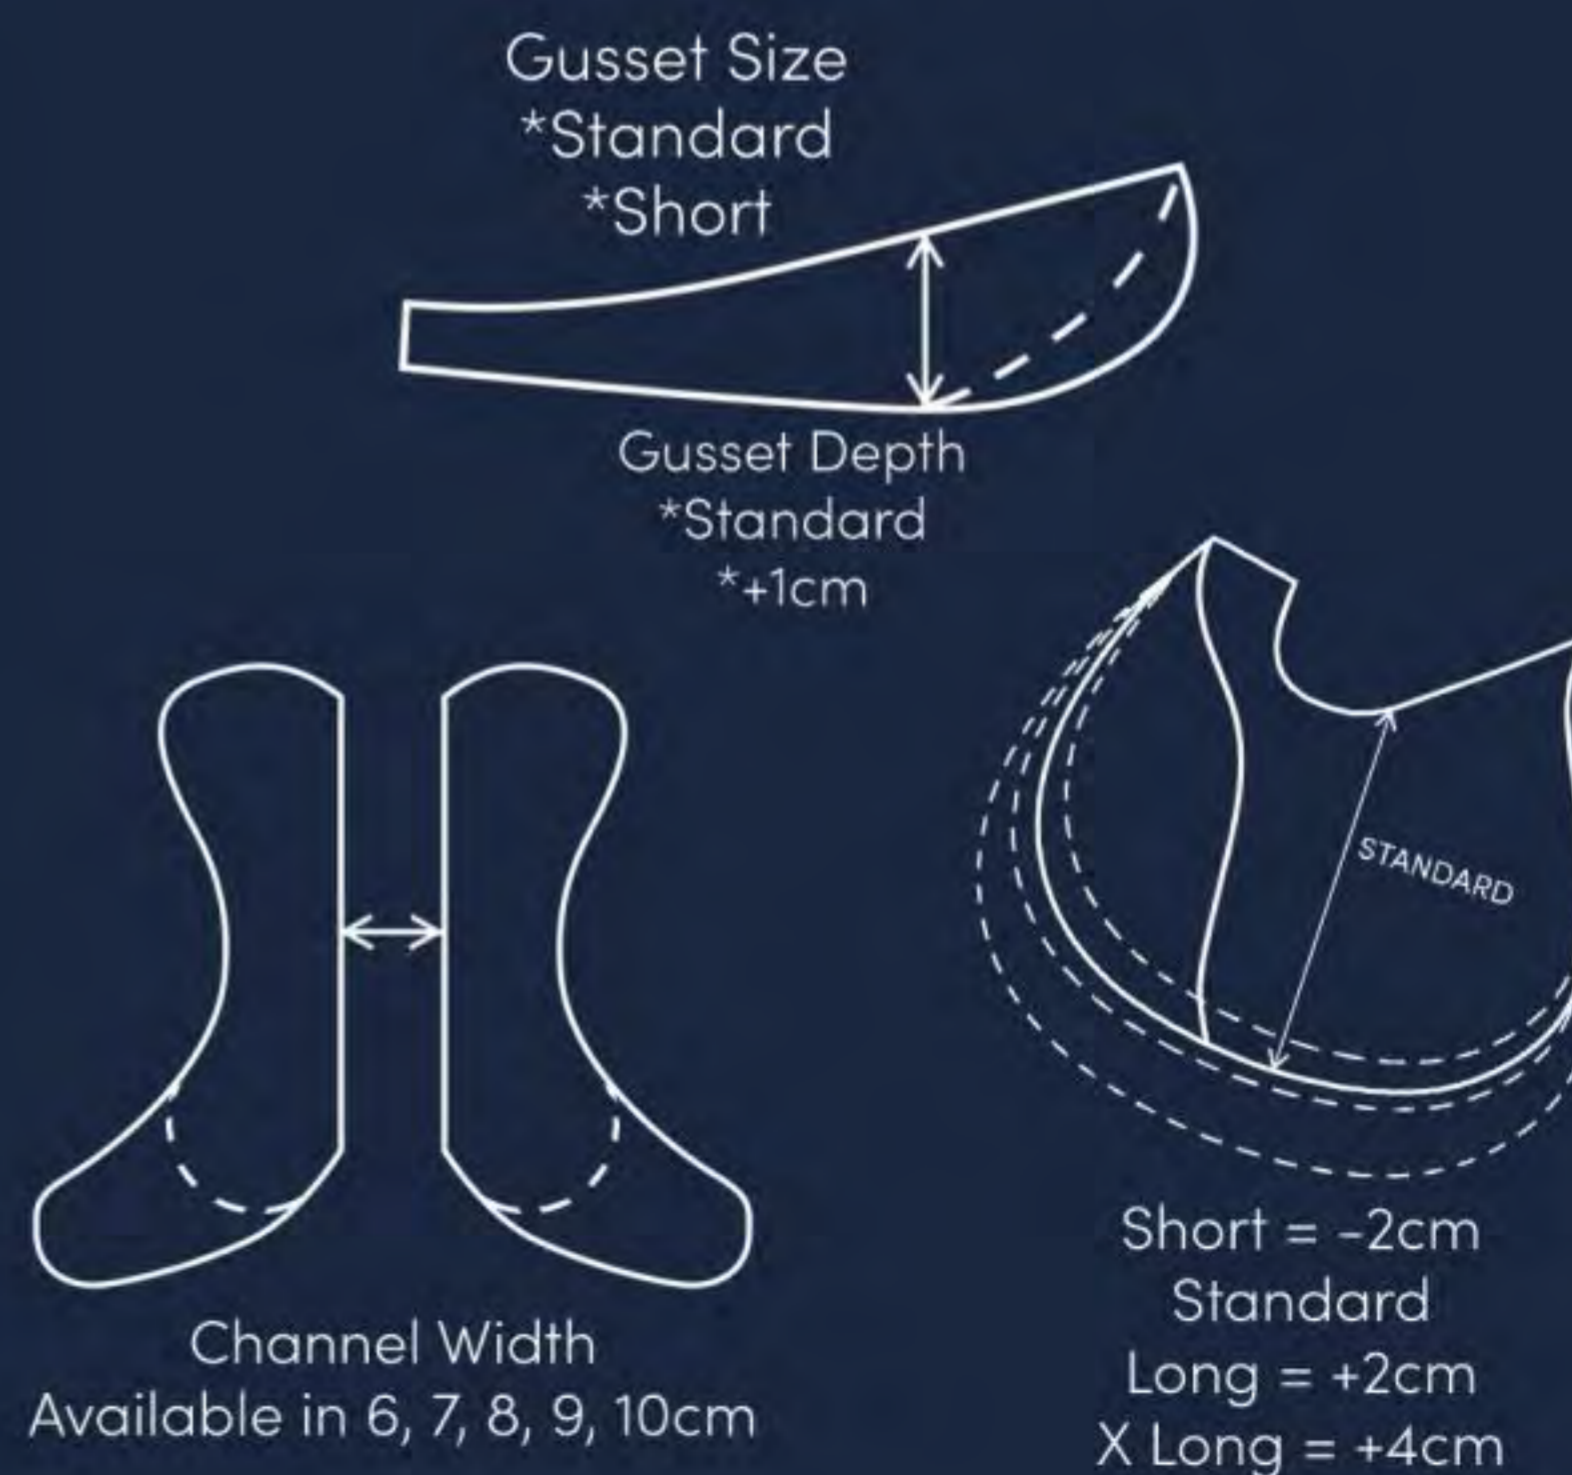

Sizes: 16.5", 17", 17.5", 18"

Colours: Black, Chestnut, Dark Brown

Knee rolls come in one size and are fixed.

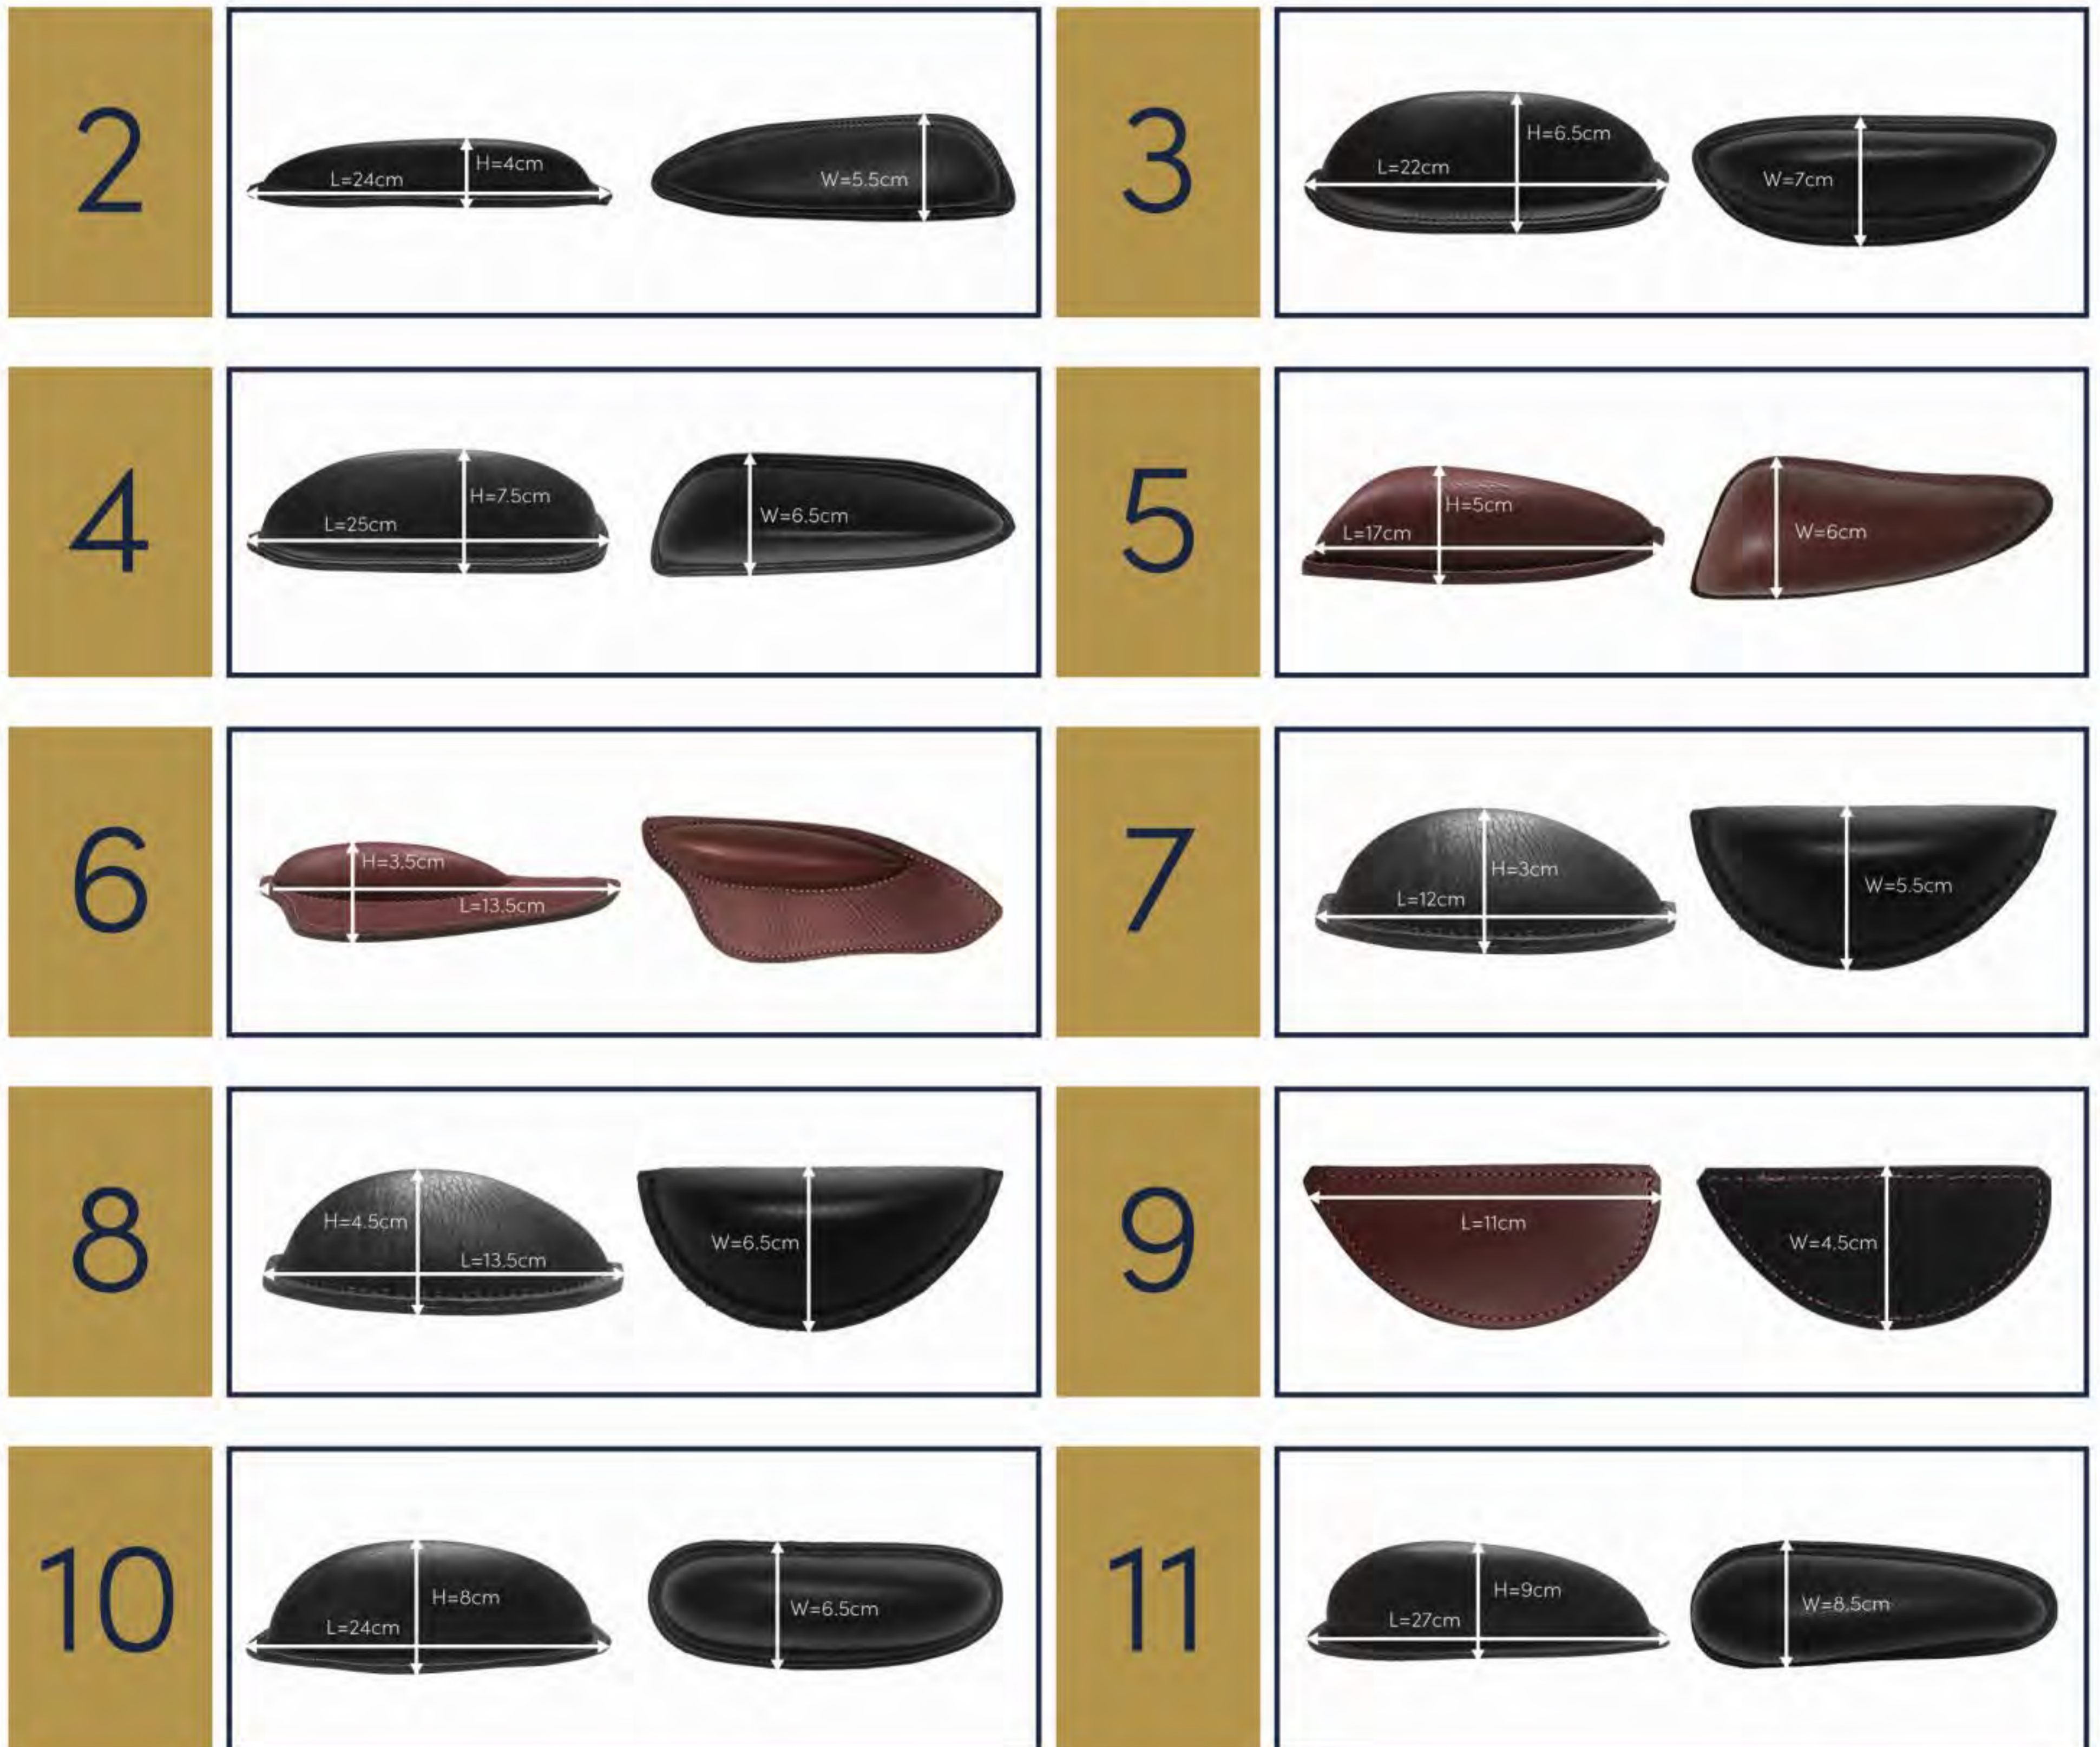

SF All Purpose

The SF All Purpose Saddle is the perfect saddle for the discerning everyday rider, suitable for young riders starting out, older riders for support and comfort for and pleasure riders who would like something to do a bit of every discipline in. Combines the light weight forward cut design of a jump saddle with the slightly deeper seat of a dressage saddle. The SF All Purpose is the ultimate saddle for the all - round rider who is looking to participate in all equestrian disciplines. Also great for hunting.

Knee Roll Options

Each saddle has the choice of one pair of knee rolls. Additional pairs can be purchased separately.

SADDLEFITTING AND AFTER SERVICE

At PHS, we have built our business on family values and the quality of service. Our saddlemasters are trained with the care of looking after both horse and rider. Equine back health is paramount for us and an exceptional **customer experience** is essential for the buying experience with Peter Horobin Saddlery.

With over 40 years of experience, we have implemented simple but effective design elements to our saddles. With **girth points, channel widths, repacking** and **gullet changes** easily done **on site** via a **qualified PH saddlemaster**. There should be minimal reason for you to be without your saddle for any long periods of time!

Second Generation Australian Saddler Comes To Europe

"As a second generation saddle fitter I am looking forward to dedicating my time and skills to the customers in Europe and the UK. After working in Australia for almost 10 years I am very eager to provide the service and saddle fitting expertise to customers in Europe as my father has done so in Australia for over 40 years. It will also be a fantastic experience to bring some Aussie culture to the european equestrian community and learn as much as I can about the way of life in the EU."

- Rhys Horobin

Rhys is a second generation saddle maker and saddle fitter to founder Peter Horobin. He will be dedicating his skills and workmanship to the riders of Europe and the UK throughout the season of 2017-2018.

Assisting our agents and saddle fitters throughout this region he will be available for saddle fittings in selected locations.

Rhys will also be able to assess, adjust and repair all brands of saddles.

STRIDE FREE®

Racing Collection

An **award winning** design, the StrideFree **training saddles** and **race saddles** are exported world wide. Made with **exceptional quality**, each saddle is designed and made with top quality **European leathers** from **sustainable tanneries**. With options of different colours and piping, **customised** name embroidery is also available. The race saddles range from 195g to 3kg.

Training and **race saddles** have been tested on **racehorses** across the world and we now have solid evidence of the StrideFree tree minimising wither soreness and back pain in sensitive horses. It has been proven that the **StrideFree** tree allows a horse to **stride freely** and naturally, improving **gait length and comfort**. This results in the horse achieving that extra 1% needed for that winning formula. Effectiveness of other valuable treatments; such as **physiotherapy** and **chiropractic** as part of a racehorse's **daily maintenance** and **training routine** are also maximised while using the **StrideFree** on the **gallops everyday**.
