

The StrideFree® Kanga rider likes to push the limits.  
To jump higher, to go faster, with dreams to become  
world class.

The Kanga rider loves to be seen. Is brand focused,  
enjoys life, lives and breathes jumping.

The Kanga rider is modern, chic and forward thinking.

**STRIDE**  
**FREE**®

The **StrideFree® Kanga** has been refined for ultimate close contact. The stirrup bar alignment supports the mobility and forever changing gravity of the rider, to suit their position. It has the added benefit of back blocks to ensure the riders legs don't move too far backwards with higher jumps.

Built on the StrideFree® tree for complete freedom in horse shoulder movement
